

11th September, 1968

Mr. Joseph Mori,
National Foundation,
800 Second Ave.,
New York, N.Y. 10017.

Dear Joe,

I am enclosing a copy of a reply I received from
Time magazine which is self-explanatory.

I am also enclosing a news story which you probably
have already seen on Lewontin's talk. John Fuller was rather
distressed by the tone of the article. Lewontin's lecture, it should
have been obvious, was intended as good humored insider's criticism and
really not for public consumption. I think the story represents an
abuse of the privilege extended to the press in permitting them to attend.

Best regards.

Sincerely,

Victor A. McKusick, M.D.
Professor of Medicine
